SCOTT ALLAN

EVIDENTIAL MEDIUM | AUTHOR | PODCAST HOST

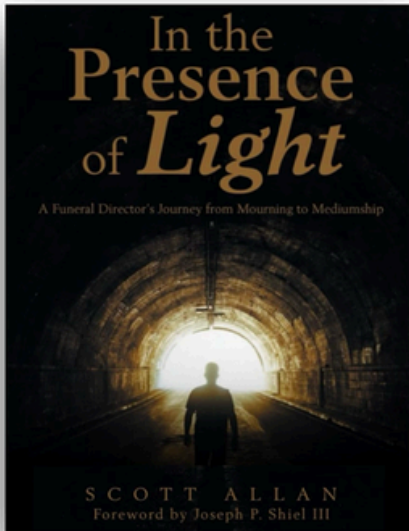

Scott Allan's life has always been about connection — first, as a compassionate funeral director, and now as a renowned evidential medium, author, and mentor known to many as “The Boston Medium.” His journey into the

world of spirit was as unexpected as it was profound.

At just sixteen, Scott dedicated himself to guiding others through their darkest hours, helping them navigate the loss of loved ones. But what

he didn't foresee was that his own life would one day be shaped by a gift that

was both mysterious and unnerving. His mediumship began in a manner he couldn't have anticipated. What he first thought might be haunting or even an attachment revealed itself instead as an invitation — an awakening to Spirit. A string of chilling yet awe-inspiring experiences became the catalyst, setting him on a path to uncover a deep connection with the other side. Over time, fear transformed into a purpose: to be the bridge between worlds, sharing messages of love, peace, and hope with those in need. Then, a fortuitous encounter with actress Forbes Riley changed everything. Scott was given the chance to read for her live on air, bringing through her late friend, Francis, in a moment she described as “mind-blowing.” That single reading sparked a journey that would lead Scott to read for clients across the United States and around the world, standing on stages before sold-out crowds and touching lives with each heartfelt word.

“The pages of this book overflow with empathy, compassion, and pervasive, boundless love.”

-Kathleen

“He found the answers, or should I say, the answers found him, and healed the hearts of many grieving the loss of a loved one through amazing spiritual connections.”

-M.K.

“Uplifting, thought provoking and stays with you long after you turn the last page”

-Amazon Review
